Containers

[Outdoor Planters](#)

[Garden Urns](#)

Containers Containers are a great way to add seasonal colour to your outdoor garden decor. They are versatile in many ways and can be used for both artificial and natural plantings. Vergil's Home and Garden containers are made of cast aluminium giving them the additional benefit of longevity. Changing the plantings in the containers, as well as the finish on the containers themselves, are a great way to keep your outdoor garden decor current with trends and seasons. They are long lasting and will enhance any home, patio, garden or poolside.
