### Gates/Fencing

Gates and fencing are not only a wonderful outdoor garden decor they are also a great security feature. Garden gates can be very decorative as an entry way or focal point in a garden. Our gates and fencing are all made of Cast Iron. They are very sturdy and you are assured a life time of enjoyment. We use a special process to paint our iron products. Some of our customers prefer the old rusty look while some are looking for a new pristine painted finish. We are here for both of those requests. Cast Iron will always rust but there are ways to minimize the rusting and keep the gate and fencing looking fabulous through the years.
